Applications

The optical faceplates are part of the optical link that offers a smart and simple solution for the FTTD purposes. It can be mounted into a cable duct or a wall outlet with a back box and a wallplate.

General Characteristics

- Very thought and reliable holding system
- Holding system authorize horizontal or vertical mounting
- The design permits sticker area on top of adapters
- The faceplates are angled in order to save some depth into the cable ducts.
- Bending radius of the fiber is protected with the most popular cable ducts.

Physical properties

- 45 x 45mm, fit into the Mosaic type cable duct and wallplates
- Made of plastic compound
- Suitable for the following adapters:
 - 2 x ST or 2 x FC (D shape),
 - 2 x SC simplex or 2 x LC duplex (SC footprint),
 - 1 x SC duplex or 1 x LC Quad
 - 2 x SC duplex or 2 x LC Quad
